

Trend Micro Hackday

Summer 2024

By: Hadi Srour, Kien Do, Hajar Assim, Jeyason Jeyaparan

Kien Do  12:30 PM

Hey can you check how long the line is? It's 12:30 and I don't know if the line's short enough yet.
Hey what's for lunch today?

Anyone know whats for lunch tomorrow?

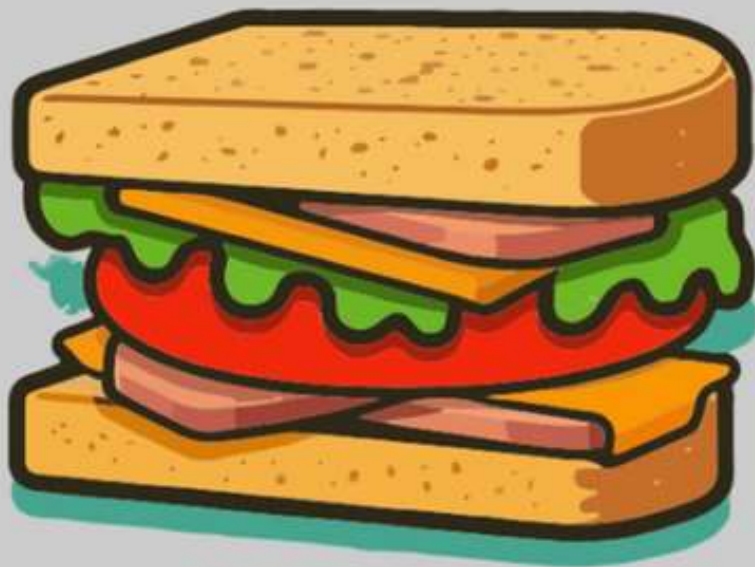

Hadi Srour 11:29 AM

Hey Kien can you hold my spot in line for lunch?? My meeting ran late

Kien Do  11:31 AM

Get your own spot bruh  You snooze you lose

LunchBox AI

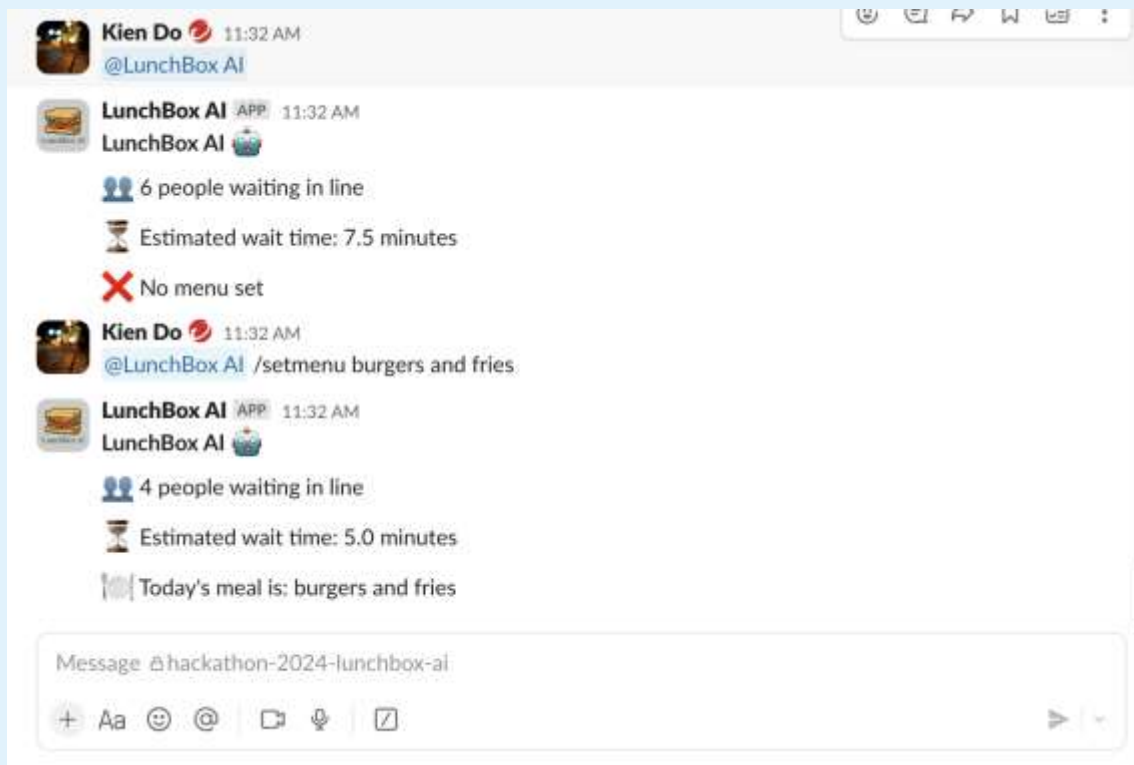

LunchBox AI

Your lunchtime companion!

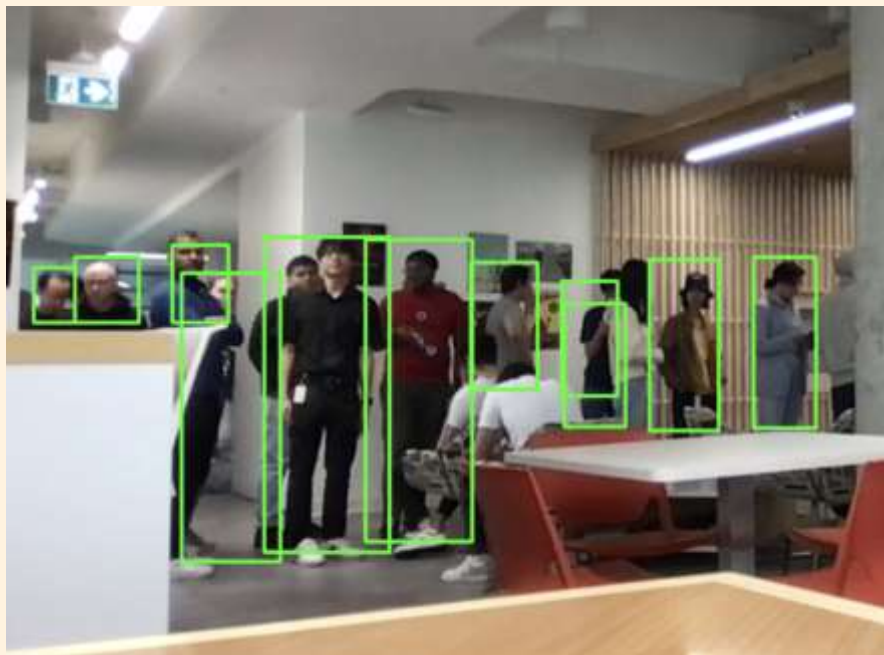

This Slack bot provides real-time updates on whats for lunch, the length of the line and calculates the wait time using real time human detection.

Usage

How It Works

TECH STACK

01

Python

Libraries: OpenCV,
TensorFlow, Slackbot Api

02

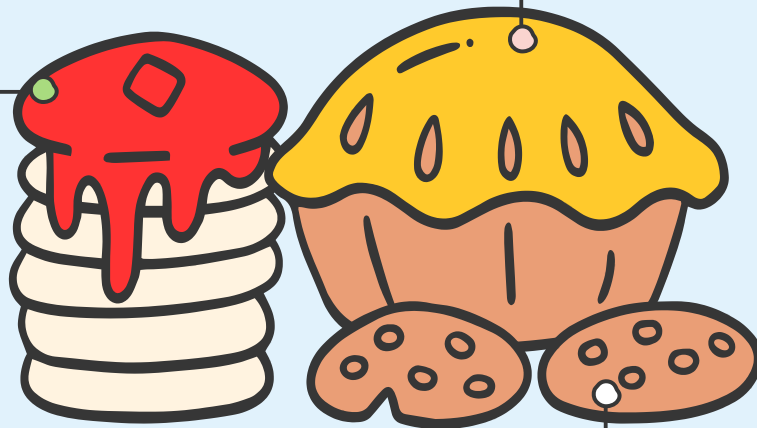

AWS

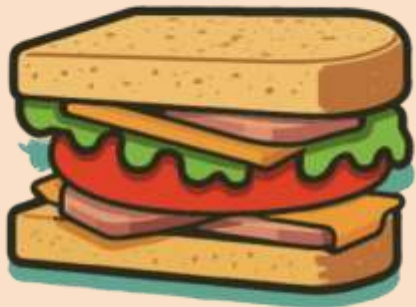

For hosting the bot

03

Mobilenet V2 SSD

Object detection model that combines
MobileNet V2 architecture with Single Shot
MultiBox Detection (SSD) to detect humans.
